- **This Year’s Theme is God’s Wonder Lab.** A science lab is full of fascinating things that help us explain how things are possible. This six-week program combines science and vacation Bible School. In Jesus’ ministry, He did things that cannot be explained. He turned water into wine, walked on water, and His greatest miracle of all was dying on the cross and rising from the dead for our salvation. Discover that Jesus does the impossible for us at God’s Wonder Lab
